

Algebraic Statistics

1000 Genomes

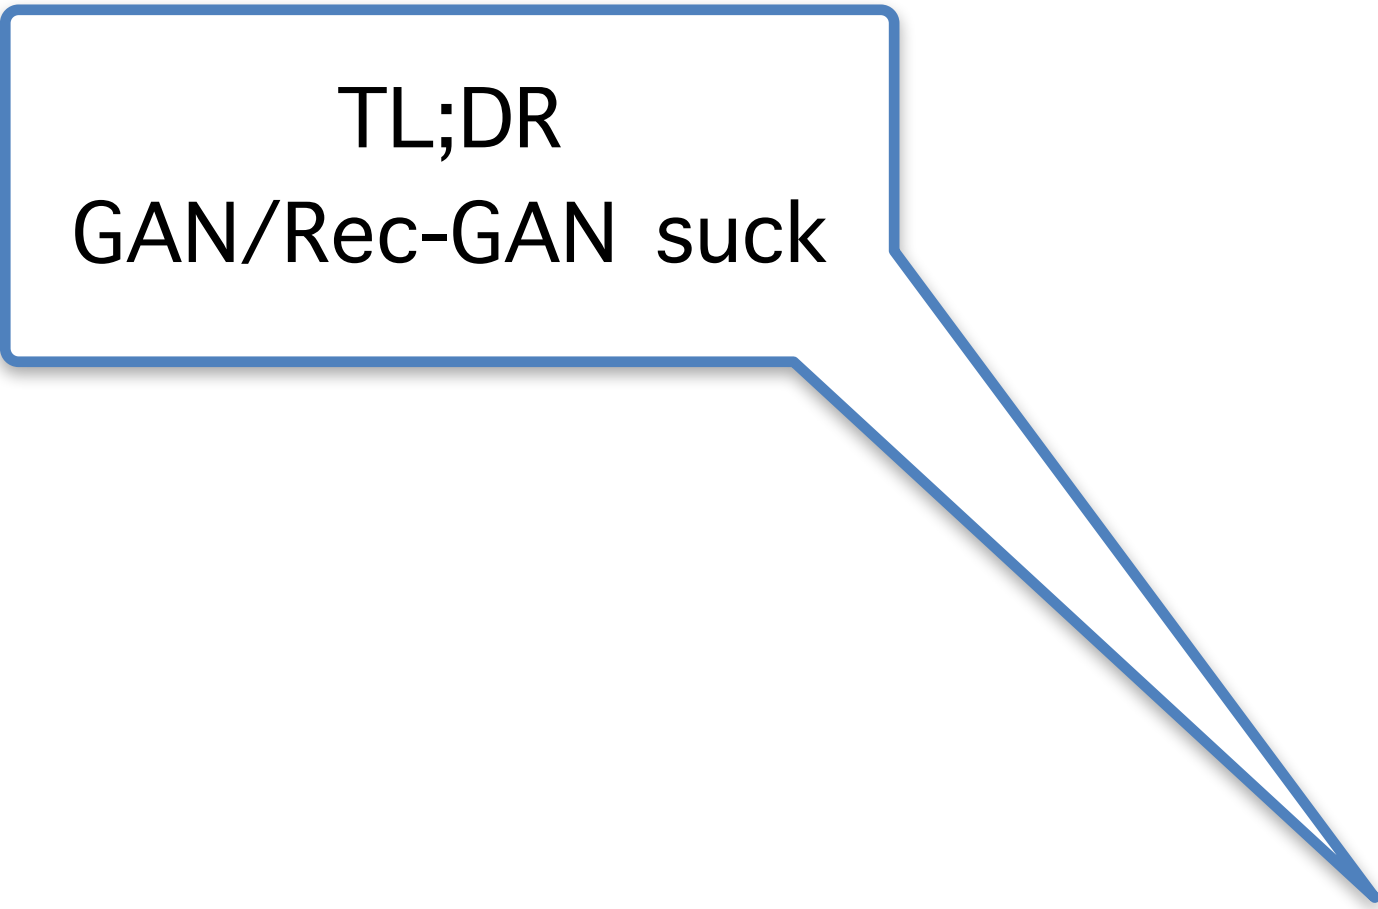

Major Allele Frequency = frequency at which the most common allele* occurs in a population.

Commonly used to differentiate between common and rare variants.

*One of 2+ forms of a gene arising by mutation found at the same place on a chromosome

TL;DR

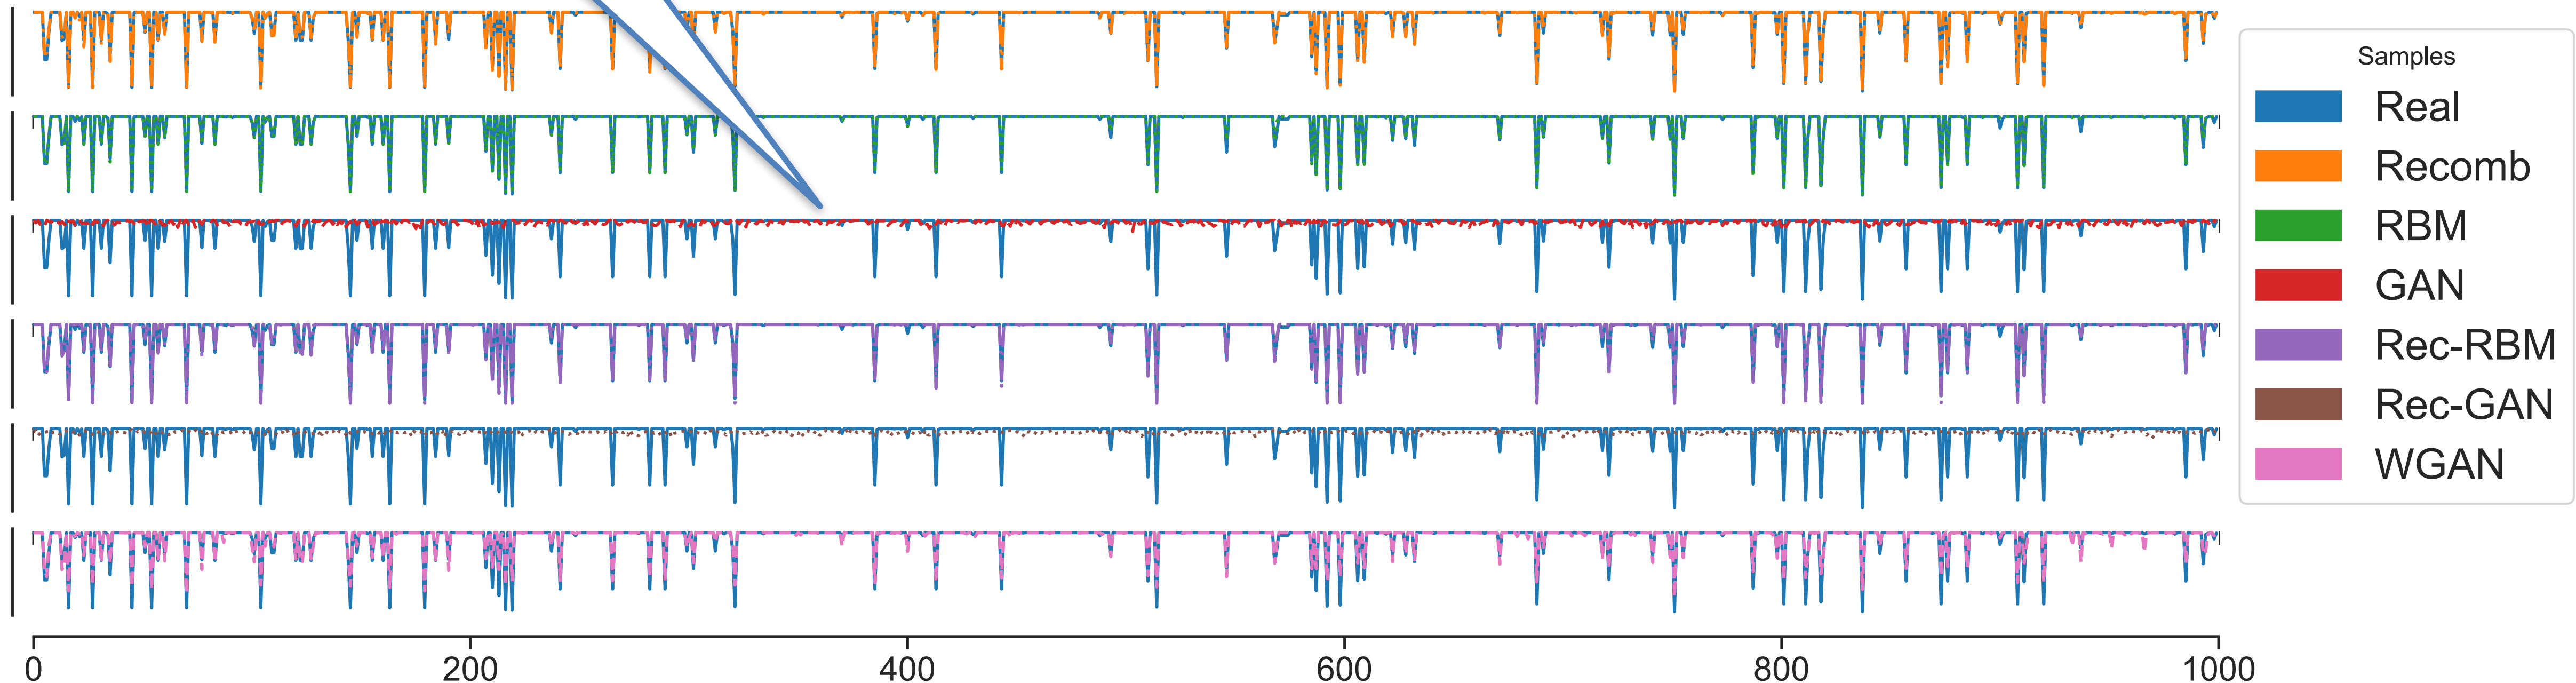

GAN/Rec-GAN suck

A blue speech bubble with a white background and a blue border. The bubble is rectangular with rounded corners on the left side and a pointed tail on the right side. It contains the text 'TL;DR' on the first line and 'GAN/Rec-GAN suck' on the second line. The bubble is positioned in the upper left quadrant of the image.
